

**Preliminary Amendment of U.S. National Stage of International Application  
PCT/EP00/02249 filed March 14, 2000**

**REMARKS**

Claims 19-34 are currently pending in the instant application.

The Specification has been amended to include the preferred section headings pursuant to 37 C.F.R. §1.77. It is submitted that the amendments to the Specification made herein introduce no new matter. Their entry is therefore proper and respectfully requested.

Original claims 1-18 have been canceled and replaced with new claims 19-34 solely for the purpose of improving clarity and grammar, which may suffer in translation, and not for any reason related to the statutory requirements for a patent.

New claims 19-34 have not been added in response to any rejection, or in anticipation of any rejection related to the statutory requirements for a patent. Applicants respectfully submit that the scope of new claims 19-34 corresponds to the scope of original claims 1-18 and that new claims 19-34 are no narrower than original claims 1-18. Furthermore, although a moot point in view of their cancellation, Applicants respectfully submit that original claims 1-18 satisfied the requirements of 35 U.S.C. §112, as filed. New claims 19-34 are supported by the specification and no new matter has been introduced. Entry is therefore proper and respectfully requested. Prompt examination of the instant application in view of the amendments made herein is respectfully requested.

Respectfully submitted,

John E. Drach  
(Reg. No. 32,891)  
Attorney for Applicants

**Preliminary Amendment of U.S. National Stage for International Application  
PCT/EP00/02249 filed March 14, 2000**

**VERSION WITH MARKINGS TO SHOW CHANGES MADE**

**In the specification:**

All text above line 6, of page 1, which originally read as follows:

**[Filler-containing Foams]**

**Field of the Invention**

This invention relates generally to filler-containing foams and, more particularly, to foams with increased fire resistance.

**Prior Art]**

...has been replaced with the following new section headings and text:

**—TITLE OF THE INVENTION**

**Filler-containing Foams**

**BACKGROUND OF THE INVENTION**

This invention relates generally to filler-containing foams and, more particularly, to foams with increased fire resistance.—

The paragraph beginning on line 28, page 17, entitled "Components (I) and (II)" and ending on line 2, page 18 which originally read as follows:

**[Components (I) and (II)]**

It has proved to be of advantage to select the constituents of components (I) and (II) so that a viscosity of 500 to 50,000 mPas at 25°C and preferably in the range from 2000 to 20,000 mPas, as measured to DIN ....., is reached.]

...has been replaced with the following new text

**Preliminary Amendm nt of U.S. Nati nal Stag f r Int rnati nal Application  
PCT/EP00/02249 filed March 14, 2000**

**– Components (I) and (II)**

It has proved to be of advantage to select the constituents of components (I) and (II) so that a viscosity of 500 to 50,000 mPas at 25°C and preferably in the range from 2000 to 20,000 mPas, as measured to DIN 53211.—

**In the claims:**

Claims 1-18 have been canceled. New claims 19-34 have been added.
